TABLE OF CONTENTS

Package design checking chart **10**
Properties chart of plastic sheeting used for rigid containers **164**
Properties chart of wrapping materials ..... **insert 234–235**
Properties chart of molded and cast plastics used in packaging ..... **insert 326–327**
Properties and use chart of adhesives **450**
Labeling difficulties chart—causes and corrections ..... **insert 498–499**

★ ★ ★ ★

Foreword 2
Authors and acknowledgments 3

★ DESIGN PRINCIPLES

Procedure in design 8
Design testing techniques 13
Merchandising considerations 15
Production considerations 17
Package simplification 20
Color systems and reproduction methods 22
Color photography 28

★ PACKAGING LAW

The food, drug and cosmetic act 34
State and local laws 38
Regulations affecting special trades 40
Package and trade-mark trespassing 42

★ PAPER CONTAINERS

Wood pulp in the paperboard industry 46
Boxboard—types and selection 47
Folding and display cartons 51
Paraffined and waxed cartons 82
Laminated cartons 88
Paper containers for liquids 90
Fibre-bodied cans 96
Set-up paper covered boxes 101
Types and styles of set-up boxes 106

★ BAGS

Types of bags 120
Paper bags 122
Transparent bags 126
Metal foil bags 132
Textile bags 133
Cotton bags 136
Heavy duty multiwall paper bags 138
Merchandise envelopes and packets 140
Bags—special types 144
Bag closing and sealing methods 146

★ RIGID PLASTIC SHEETING

General considerations 150
Set-up rigid plastic containers 152
Drawn rigid plastic containers 156
Rigid plastic displays 170
Cellulose derivative containers 176

★ WRAPPINGS

Boxmaking and decorative papers 178
Decorative foils 184
Crepe paper for display and backgrounds 185
Corrugated papers for display 189
Decorative tissue papers 193
Decorative ribbons and ties 195
Shredded paper and cellulose 199
Protective foils 200
Printed transparent sheeting 204
Glassine: protective and decorative 208
Waxed paper 212
Vegetable parchments 216
Transparent wrapping sheeting 219
Laminating and combining 223
Tarnish resistant papers 225
Special papers for packaging purposes 226
Resin treated papers 227
Package sealing tapes 230

XUM

★ WOOD, LEATHERETTE AND POTTERY

Leatherette boxes and containers....236
Leatherette and coated fabric materials....239
Fancy wooden boxes....244
Pottery containers....245
Molded pulp containers....252

★ METAL CONTAINERS

Tin cans and packages....254
Can decorating processes....262
Aluminum vials....266
Specialty metal containers....268
Collapsible metal tubes....274

★ GLASS CONTAINERS AND CLOSURES

Glass bottles and jars....278
Finishes for glass containers....283
Closures....284
Types and styles of closures....285
Hand made glass bottles....307
Closure liners and sealing compounds....310
Glass vials, tubes and ampoules....314

★ MOLDED PLASTICS

Plastics for packaging....318
Thermosetting compounds....320
Thermoplastic compounds....324
Cast plastic compounds....328
Stock mold plastic containers....330
Molding methods....334

★ DISPLAYS

Display circulation measurement....342
Specific functions of displays....344
Preparation and planning of displays....347
Coordinating display with other advertising....350
Distribution problems of display material....353
Window displays....358
Counter displays....363
Floor stands and island displays....368
Decorated sheet metal displays....372
Modern wire display stands....375
Plastic displays and fixtures....377
Displays of rigid plastic sheeting....380
Wood displays and cabinets....383
Motion and light mechanisms....385

★ LABELS, SEALS, TAGS

Printed and lithographed labels....388
Informative labeling....394
Tags—identifying and descriptive....401
Informative marking pieces....403
Embossed labels and seals....406
Transparent labels....408
Package folders....409
Decalcomanias....412

★ PRINTING

Package printing equipment....414
Printing inks for packages....420
Protective coatings....424
Coating, laminating, and embossing equipment....434

★ ADHESIVES

Basic definitions....438
What all adhesives have in common....438
Types of adhesives and their characteristics....438
Types of adhesives and types of adhesion....440
Types of adhesives vs functions....442
Factory considerations....442
Field considerations....446
Main types of failure and remedies....446
Subsidiary types of failure....448
The compromise called commercial success....448

★ MACHINERY AND SUPPLIES

Plant planning....454
Plant layout checking points....456
Factors of mechanization....458
Weighing and filling dry products....460
Check-weighing scales and devices....466
Bottle cleaning equipment....472
Filling liquids and pastes....480
Capping and sealing equipment....491
Labeling machines and devices....498
Wrapping equipment....504
Tight-wrapping equipment....512
Carton loading and closing equipment....516
Collapsible tube filling....518
Bag filling and sealing....522
Box and bag stapling equipment....526
Case packing and sealing machinery....530
Materials handling equipment....532
Lubrication of packaging machinery....539

★ SHIPPING

Shipping methods and considerations....542
Corrugated and solid fibre cases....549
Types and styles of fibre containers....551
Wooden boxes and shipping containers....553
Steel strapping shipments....555
Wire-stitched containers....559
Fibre shipping drums....563
Metal shipping drums....573
Protective pads and cushions....584
Sealing with gummed paper tape....588

★ DIRECTORIES

Buyers' directory....592
